cencora

Introducing Cencora, formerly AmerisourceBergen

After more than a century of partnerships and innovative pharmaceutical solutions, we're boldly shaping the future of healthcare as Cencora.

We're a leading global pharmaceutical solutions company committed to improving the lives of people and animals everywhere.

Over time, most of our subsidiary brands will transition to Cencora branding. For now, it's largely business as usual from the partners you know and trust.

See what's new at www.cencora.com

Commitment

As we welcome a new year, and as I step into this new role with Oncology Supply, I wanted to take a moment to express our unwavering commitment to you, our valued customers. At Oncology Supply, we firmly believe that our success is intricately tied to your success. We recognize that without your trust, support, and partnership, we would not be where we are today. This understanding allows us to place your needs and satisfaction at the forefront of everything we do.

Our commitment extends beyond providing access to life-saving medications; it encompasses maintaining relationships based on integrity, reliability, and mutual growth. We are committed to actively listening, understanding your unique challenges and goals, and tailoring our solutions to help meet those goals.

As your partner, we also commit ourselves to staying ahead of the curve by investing in and embracing emerging technologies and continuously improving our processes to help you care for your patients today and in the future. This includes the spectrum of services

we offer from our distribution centers and sales teams – from order taking and processing; to product packaging and shipping; to optimizing your contracts. Every touchpoint we have is designed to ensure your success.

We are also committed to improvements and enhancements with our specialty distribution network. The addition of Montclair, California and Brooks, Kentucky locations gives us the necessary redundancies that have enhanced our backup capabilities. We've also made substantial upgrades in our technology systems at these locations to better serve you. These investments have been made to prepare for your future so that we are a strong, nimble specialty supply chain network which makes us a better partner.

As I embark on this new journey, I want you to know that my door is always open for any concerns or suggestions you may have. Your input will guide us in shaping the future direction of our offerings as we work together to create healthier futures.

Thank you for all that you do to care for your community.

Annette Bentley
Vice President and General Manager

Our purpose is to source safe and effective medicinal products that drive quality and efficiency in pharmaceutical care to help improve patients' lives.

BluePoint drives quality of drug product through:

- cGMP Quality agreements with drug product manufacturers;
cGMP audit of drug product manufacturing sites
- Test samples from each manufactured drug product lot
- Product label & insert design and FDA regulatory submissions
- FDA Labeler code, NDC and GTIN management
- DSCSA serialization checks;
Customer complaint and recall management

Is your practice ready for MIPS 2024 reporting year?

Each year brings more requirements in terms of reporting for the Merit-based Incentive Payment System (MIPS) – requirements that may be challenging for your practice to achieve. Ease the burden on your staff and let our team of MIPS experts help you successfully meet the 2024 MIPS measures.

Ask about our new **Cost Analytics Service** where our team can estimate your MIPS Cost measure score for a potential positive impact on your overall MIPS score.

Contact us today at info@intrinsiq.com to schedule a consultation.

Our consultants will:

- Manage the data submission process
- Update you on your progress with suggestions for improvements
- Provide continual coaching and consulting throughout the entire year/reporting period

Global Provider Insights Network

Join GPIN today
and enhance cancer
care for the future

**Impact treatment guidelines with real-world
market research opportunities**

Join the Global Provider Insights Network® (GPIN) and become part of a network of over 1,400 healthcare professionals participating in honoraria-based market research opportunities.

- Participate in blinded and unblinded market research opportunities, such as Challenging Cases® and Emerging Perspectives
- Earn fair market value honoraria for your participation

Your insights will help pharmaceutical, biotech, and diagnostic companies better understand your needs as a healthcare professional, as well as the needs of patients.

Access up-to-date NCCN® order templates within IntelliDoseTxM®

With a subscription to the NCCN library within IntelliDoseTxM, you can access the fully integrated, dynamically updated NCCN cancer care recommendations. There is no need to maintain a separate subscription.

- Preview each treatment plan and corresponding order sets
- Activate only the plans your providers need
- Customize plans to suit unique treatment protocols
- Quickly view NCCN reference material
- Receive automated updates within IntelliDoseTxM of new NCCN treatment protocols
- Maintain NCCN-referenced template notes

Request a demo to see NCCN order templates within IntelliDoseTxM.
